

Student Card Policy

All students registered in at least one for-credit course at Royal Roads University shall be provided with a student card that serves as their primary method of identification for the purpose of access to university facilities and services, including the library, recreation centre, and computer accounts. Student cards become invalid and student access to facilities and services is suspended should a student go on leave of absence or if there is a period of three months or more between a student's courses (as determined by the end date of one course and the start date of the next course). Students are required to obtain a new student card when they return to active registration status. Student cards may not be issued more than 30 days before a program starts.
